

Know the Code: for all international learners

All international learners coming to study in New Zealand can expect to be provided with accurate information about their study both before coming to New Zealand and once they arrive.

This, and what other additional support you as an international student can expect, is outlined in the Code of Practice (2021). These videos from NZQA aim to support your understanding of the Code of Practice (2021).

You can watch the videos below.
